

Hints For Parents, Teachers and Pupils

PARENTS

1. Show a constant interest in your child's work.
2. Have your children take lessons regularly.
3. Supervise your child's practice.
4. If possible sit in while your child practices.
5. Please understand that different children progress at different rates of speed.
6. Be sympathetic and patient with your child.
7. Be tolerant — try to understand the teacher's problems.

TEACHERS

1. Be enthusiastic. Enthusiasm is the spark of life.
2. See that your pupil experiences the feeling of success.
3. Thoroughness is important — not speed.
4. Be kind, sympathetic and patient.
5. Keep your interest in new methods and new materials.
6. Colorful and vivid teaching is best.
7. Adjust your teaching to suit the individual differences and needs of your pupils.

PUPILS

1. Early practice is best.
2. Practice slowly until the lesson is mastered.
3. Practice hands separately at first, then together.
4. Play with a beautiful tone.
5. Be careful and thorough.
6. Develop a little repertoire.
7. Count aloud — not just to yourself.
8. Always be relaxed. Avoid tension.
